WORK EXPERIENCE

Software-Developer
Costa Cloud(Product Based Company)

06/2022 - Present   *Okhla Nsic,Delhi*

Costa Cloud offers solutions specifically designed to solve problems for the Banking and Insurance (BFSI), Government .

Achievements/Tasks

- Developed and implemented a robust software solution that revolutionized the approval processes across departments, ensuring seamless coordination and reducing time-to-approval by 50%; this resulted in improved efficiency, enhanced collaboration, and accelerated project delivery timelines (Paperless Office) .
- Successfully created Data Management System using React.js, Material-Ui, Redux that allows users to upload, delete, download, favoriting, and sharing files and folders similar to Google Drive that reduces the real paper-work by 100% .
- Collaborated with developers to design and develop a user-friendly front-end interface of RTI (Right to Information) application with an optimized user experience; boosted user engagement by 25% and reduced bounce rate by 15% .
- Orchestrated the development of algorithms, API integration and flowchart with a team of 5 developers ; delivered a fully functional and scalable application that processed 50K+ data points daily with 99% accuracy .
- Resolve the daily basis issue, bug or any additional feature that provided in Jira by Testing Unit which makes application bug-free and updated to the current requirement by 100% .

EDUCATION

BTech in Information Technology
Guru Gobind Singh Indraprastha University

08/2018 - 07/2022   *CGPA 8.3*

Class-XII
Poorna Prajna Public School

03/2016 - 03/2017   *CGPA 7*

SKILLS

HTML5   CSS3   JavaScript   React Js

React Native   Git   C++   Java   Node Js

Redux   Redux-toolkit

PERSONAL PROJECTS

Moviesverse (03/2023 - 06/2023)

- Solo Finished a user-friendly web application using React.js and Material-UI that allows user to search for information about any movie or web/TV show. The app utilizes the TMDB API for all data-related queries, ensuring 100% real and accurate information. To efficiently manage state and data fetching, I implemented Redux Toolkit and Redux Toolkit Query.
